9-2

[REDACTED]

In our letter of 1 March 1948 we mentioned that we needed the talking machine for which we enclosed a concealed damage claim. However, to date we have heard nothing from you as to whether you are going to send an inspector to look 25X1A this machine.

[REDACTED]

As stated before, it is very important that we get this machine into operation as soon as possible. This can not be done until the factory repairs the damage and puts it into operating condition. Your cooperation in replying promptly and stating your action will be greatly appreciated.
